IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant: Ottusch et al.

Serial No.: 09/882,817

Group Art Unit: 2123

Filed: 6/15/2001

Examiner:

For: Method and Apparatus for Modeling Three-Dimensional Electromagnetic Scattering from Arbitrarily Shaped Three-dimensional Objects

Hon. Assistant Commissioner of Patents and Trademarks
Washington, D.C. 20231

Sir:

Applicants petition for acceptance of the declarations for this application without the signature of Harry F. Contopanagos, whose most recent known address is entered into the declaration form.

Mr. Contopanagos was contacted numerous times over the past several months regarding signing the declaration for this application as well as the assignment. The papers were both faxed and mailed via postal mail. Declaration documents were last faxed to this inventor on October 13, 2001. This was the third such attempt in addition to one attempt via postal mail. Contact attempts have also been attempted via e-mail with no greater success.

Therefore, because of Mr. Contopanagos' apparent unavailability for signing the documents, the remaining Applicants petition for acceptance of the declarations for this application. Should documents be received from Mr. Contopanagos in the future, they will immediately be sent to the USPTO.
